

Motor Assembly:

- 120 volt - 220 Watt, fan cooled motor – among the most powerful and reliable sold.
- Simple to service
- Quick-access brush replacement
- Interchangeable shearing and clipper heads
- Slim, easy-to-hold grip

Shearing Head

- Standard 3 inch head
- Patented tension system, offers 50% longer life for combs and cutters
- Includes the Australian Wool Corp's patented floating fork assembly which adjust to any cutter thickness, reducing cutter tension
- Counter-balanced crank movement with tough nylon cog reduces vibration for smoother continuous operation
- Accepts virtually all 3 inch combs and cutters made by other companies

Electric Shearing Handpiece (motor Assembly with shearing head)

- Lightweight (4.18 lb) less tiring, more comfortable to use for long periods
- Quiet running for increased operator comfort, reduces animal upset
- Includes Mohair comb, jet cutter and maintenance accessories
- Includes handy, damage-resistance carrying care.
